

Colorture Beige Toner.72

Colorture Beige Toner.72 is a dye created to tone and/or refresh hair in a long-lasting way after coloring, bleaching, and lightening. It can be mixed with other TONERS and TOOLS. Mixing with other shades is not recommended. Natural product: 98% - Natural base: Henna, Cassia, Indigo, Guar Gum, Turmeric, Methi, Katam.

How to use:

Mix the powder with hot water (50°/60°), in a dilution ratio of 1:6. For bleached, colored, or recently lightened hair, use a dilution ratio of 1:6. Leave on for up to 15-20 minutes, checking visually, without a heat source. The dyeing herbs have a strong conditioning component that restores vigor and softness to the hair in addition to coloring.
